EXPERIENCE

FULLBEAUTY Brands – UI Engineering Intern
Sep 2020 - Nov 2020 | New York, NY

- Developed UI components for FULLBEAUTY's design system using HTML and Sass by collaborating with product designers
- Created proof of concept to demonstrate how to convert company e-commerce websites into Progressive Web Apps (PWAs) and presented it to leadership

MarketAxess – Application Developer Intern
Jun 2020 - Aug 2020 | New York, NY

- Built and integrated download ability for audit history database records in Javascript and jQuery to help employees manage MarketAxess' bond trading platform
- Enhanced user experiences across our internal applications by interfacing with product managers in Agile sprints to improve UI
- Collaborated with other interns to present enhancements to senior leaders and the global management team

Twenty Over Ten – Web Intern
Jan 2020 - Jun 2020 | Remote

- Developed websites for financial advisors using HTML, CSS, and Javascript on our in-house content management system
- Designed attractive and responsive websites that were optimized for usability, SEO, and other digital marketing strategies to convert leads

NYU Courant Institute – Course Grader
Sep 2019 - Dec 2019 | New York, NY

- Responsible for turning over 50+ grades for Web Development assignments weekly on a strict deadline
- Provided feedback and training on debugging code, connecting to servers, improving HTML/CSS/Javascript

PROJECTS

Quarantine Wrapped
A Spotify Wrapped clone created with the Spotify API to show users a summary of their Spotify listening activity for the past 6 months. Technologies used: Node.js, React, REST API, Sass/CSS.

Real-Time Multiplayer Sheng Ji
A real-time multiplayer web game of Sheng Ji, a classic Chinese turn-based card game. Technologies used: React, Node.js, Express, MongoDB, Socket.io, HTML, Sass/CSS.
